COVID-19 Threat Preparedness

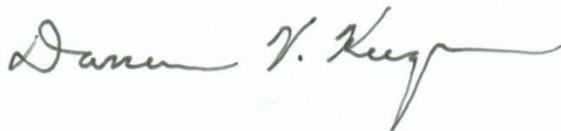

To Our Valued Customers and Partners,

We are all aware by now that there is a pandemic threatening the world community. It has affected all of us in one way or another with school and business closings, cancellation of sporting events, and restrictions on public gatherings. We would like to assure you that CK Composites has taken preventative measures to protect our workers and their families against this threat and are doing our part to slow the spread of the virus in our community.

We have taken steps to communicate with and provide the necessary supplies and hygiene training to our employees ahead of time. In addition, we have instituted measures to socially distance ourselves internally and with outside influences. We have also reached out to our supply partners to assess their preparedness in this difficult time. We will continue to monitor the information made available to us by the CDC and WHO and adjust our plans as needed to continue the highest level of protection for ourselves and our community.

CK Composites is open for business and will do everything possible to slow the spread of the virus. We intend to operate through this difficult time and do not foresee disruption in service to our customers. As a part of our social distancing efforts, we have shifted employee work schedules. We ask for your patience as our communication may slow as we adjust to these changes. Please do not hesitate to contact us with any questions or concerns you may have. We look forward to supporting you through this crisis and beyond.

Sincerely,

Darren Keegan
President
